HOMES

about us

What is Exterior Portfolio?

Don't settle for cookie-cutter design. Now, you have access to a palette of distinctive choices. Exterior Portfolio™ by Crane is a complete collection of cladding products that will give the face of your home an image you will love. The unlimited design options of Exterior Portfolio have been used to create some of America's most beautiful homes. Now you can enjoy this same impact with the added value of long-lasting, maintenance-free performance.

The outside of your home is the first layer of the unique design you will create for yourself, your family and friends. It sends a message to the world about your personal sense of style. Be sure it's saying who you really are.

The Crane Tradition

For three generations the Crane family has been in the business of designing and manufacturing building products. The Crane heritage is grounded in the American tradition of hard work, pleasure in craftsmanship and satisfaction in a job well done.

Crane's introduction of SOLID CORE SIDING® in 1998 set the stage for a breakthrough in exterior design. Today, Exterior Portfolio™ by Crane offers the complete range of exterior elements, designed to execute virtually any architectural concept with authentic, natural style, true maintenance freedom and outstanding performance of an entirely new category in building products.

The Crane story doesn't end here. The company continues to innovate, refine and expand.

All of our products are backed by the strongest warranties in the industry. The exterior of your home is most likely the biggest design statement you will ever make. You can trust that statement to Exterior Portfolio by Crane.

Carolina Sands®

Highlight your exterior.

Beaded siding has long been a signature of prestige for exquisite homes. **Carolina Sands®** is no exception. Its authentic, handcrafted, wood appearance gives Carolina Sands a crisp, appealing silhouette that is as stunning from the curb as it is up close. Its attractive 6" plank design matches the traditional width of fine, beaded wood siding. Best of all, Carolina Sands has been carefully designed to withstand the harshest weather conditions while retaining its exceptional allure.

Extraordinary accent for remarkable homes.

6.5" Beaded

Portsmouth Shake®

Give your home classic character.

Portsmouth Shake® has every detail covered. Its deep, rustic grain is patterned directly from real split cedar. It covers the face of the panel as well as the area under the profile edge. Even looking up the wall, Portsmouth Shake looks like the real thing.

Portsmouth Shake's reinforced nail slots and perimeter locks provide a strong, firm fit. Even in the harshest weather, Portsmouth Shake shingles will stay fastened securely to the wall.

Captivating form. Compelling function.

ColorLife™ Fade Defense is an advanced color protection formula that utilizes BASF's Luran S technology to keep siding color fresh and true for the life of the home.

Beauty and performance
 that will last a lifetime.

The remarkable beauty of Oracle® comes from its unique design. Oracle delivers a quality of structural integrity never before available in a siding product. Add the detail of authentic true-milled cedar woodgrain and a lustrous, low-gloss finish, and you have the handsome distinctiveness of the Oracle home. The wider coverage design feature of Oracle, called CraneSpan®, along with its rigid SOLID CORE™ backing,* **straightens walls and reduces seams.** This allows the Oracle panel to cover more than twice the area of conventional siding.

Comfortable Living. Season After Season.
